

WELCOME TO SDSG MODDING!

BY: MAHDIISDUMB

This'll teach you how to read MY SPAGHETTI, make your own games(with the castiel documentation), The layout, what not to do and the awknowledgments for SDSG modding

```
Index{  
1.Title and index  
2.Spagetti Code  
3.Castiel Documentation  
4.Layout  
5.What not to do  
6.Awknowledgements  
7.Glossary  
}
```

SPAGETTI CODE

This isn't really spaghetti code, it's rather **minified** code. What minified code is, is when I take the All HTML, CSS, JS(Most of the time[I may forget to minify some]) and minify them using <https://www.minifier.org>; for an example, let paused = false; but if we minify it then that string of text becomes let paused=0; In summary it removes all the white space from a document & if theres any ambiguous identifiers it changes to the shortest one like, true would become, !0. Heres an example of minification in my code in ./src/pai/assets/Games/games/ZombieRaid/s/script.js(IDE USED VS18[VS2026])

```
1  const canvas=document.getElementById('gameCanvas');const ctx=canvas.getContext('2d');const player={x:canvas.width/2,y:canva
2  function drawBullets(){ctx.fillStyle='yellow';player.bullets.forEach((bullet,bIndex)=>{ctx.fillRect(bullet.x,bullet.y,bulle
3  function drawEnemies(){ctx.fillStyle='green';enemies.forEach((enemy,index)=>{ctx.fillRect(enemy.x,enemy.y,enemy.width,enemy
4  function moveEnemy(enemy){const angle=Math.atan2(player.y-enemy.y,player.x-enemy.x);enemy.x+=enemy.speed*Math.cos(angle);en
5  function checkCollisionWithPlayer(enemy,index){if(player.x<enemy.x+enemy.width&&player.x+player.width>enemy.x&&player.y<ene
6  function movePlayer(){if(keys.up&&player.y>0)player.y-=player.speed;if(keys.down&&player.y+player.height<canvas.height)play
7  function drawPauseScreen(){ctx.fillStyle='rgba(0, 0, 0, 0.5)';ctx.fillRect(0,0,canvas.width,canvas.height);ctx.fillStyle='w
8  function update(){if(paused){drawPauseScreen();return}
9  ctx.clearRect(0,0,canvas.width,canvas.height);drawPlayer();drawBullets();drawEnemies();movePlayer();requestAnimationFrame(u
10 document.addEventListener('keydown',(e)=>{if(e.key==='ArrowUp')keys.up=!0;if(e.key==='ArrowDown')keys.down=!0;if(e.key==='#
11 if(e.key==='/'){paused=!paused;if(!paused){update()}}});document.addEventListener('keyup',(e)=>{if(e.key==='ArrowUp')keys.u
```

And thats not even all of the code because there all panned out to the right For CSS and html however there all IN ONE LINE making it worse but its for size reasons not comfortibility so expect to see A SHIT LOAD OF MINIFIED SPAGHETTI CODE. Unfortunately There is no way(offical way) to unminify it (unless if using AI or a formatter)

CASTIEL SDK

The Castiel SDK is a JavaScript Runtime SDK meant for SDSG the original sdk (SDSG SDK) was defunct because it was webbased and sucked shit because it didnt made development easier and it was expected to be ran in a sandboxed enviornment and the castiel sdk fixed that by having handling for things(I forget) you can read the read me @ <https://github.com/Mahdiisdumb/Castiel> just use it even though i dont(im smart enough not to use it) you should use it(it makes life easier because you can see whats going on) if your not gonna use it the IDE's i reccomend are VS and VSCODE nothing else.

*"USE ME!!!!...
even though
mahdi doesnt"
-Castiel SDK*

=(

PROJECT SDSG AWKNOWLEGDE MENTS!!!!!!!!!!!!!!!!!!!!!!

1.I Mahdiisdumb cant do shit about what you do with sdsg

2.SDSG is open source

3.PLEASE DO NOT MOD PREMIUM

4.I DONT GIVE A FUCK OF WHAT YOU DO WITH SDSG

5.YOU CAN DO ANYTHING

6.IM NOT LYING

7.USE SDSG'S CASTIEL SDK PLEASE I INSIST EVEN THOUGH I DONT EVEN USE IT MY SELF.

8.IF YOU BREAK SDSG THATS ON YOU NOT ME PLEASE REINSTALL SDSG IF THATS THE CASE.

9.YOU CAN'T ADD ANYTHING ILLEGAL ITS AGAINST POLICIES AND MAY GET YOU IN TROUBLE IN SCHOOL

10.SDSG IS GAMER SANCTUARY

TL; DR MAHDIISDUMB CANT LEGALLY DO ANYTHING TO YOU IF YOU MOD PROJECT SDSG BECAUSE ITS OPEN SOURCE MAKE SURE YOU DONT DO ILLEGAL SHIT WITH SDSG AND MAKE SURE YOU HAVE A FUN TIME MODDING THIS TRASH I TRIED TO MAKE AND USE THE SDK AS A EASIER WAY TO MAKE GAMES

Sincerely -Mahdiisdumb
